

## Web Developer Internship - Altibbe Health

Join a visionary health-tech company revolutionizing wellness through transparency, AI and blockchain technology.

Empower ethical, innovative wellness solutions that impact global health.

## About Altibbe Health

### Company Profile

Founded in 2024 in Hyderabad, India with a small, dedicated team of 2-10 employees.

### Innovation Focus

Revolutionizing health transparency through cutting-edge AI and blockchain technology.

### Core Values

Driven by innovation, integrity, and making meaningful global health impact.

## Our Mission & Vision

## Internship Overview

### Position Details

Web Developer Intern with flexible full-time or part-time options.

### Duration

3–6 months program with extension opportunities for exceptional performers.

### Work Arrangement

Remote or hybrid work options from our Hyderabad headquarters.

## Key Responsibilities

### Web Development

Build and maintain responsive web applications for health transparency tools.

### Collaboration

Work with our team on AI and blockchain health technology projects.

### Integration

Connect and document APIs for seamless functionality.

### User Interface

Design interfaces aligned with our minimalist, innovative philosophy.

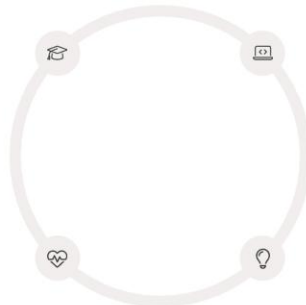

## Ideal Candidate

### Education

Pursuing or completed BTech/BE/BSc in Computer Science, IT or allied fields.

### Passion

Enthusiasm for ethical, purpose-driven health and wellness products.

### Technical Skills

Knowledge of HTML, CSS, JavaScript, React or Vue. Python/Node.js a bonus.

### Soft Skills

Strong problem-solving abilities and collaborative mindset.

## Learning & Growth

### Hands-on Experience

Work on real-world health-tech innovation projects that impact lives.

### Expert Mentorship

Learn directly from founders and wellness product specialists.

### Cutting-Edge Exposure

Gain experience with blockchain, AI, and sustainability in global health.

### Career Pathway

Potential for permanent roles after successful internship completion.
